

May 28, 2024

Dear Legislators,

On behalf of the nearly 1200 undersigned individuals and organizations from **every** county in Michigan, we are uniting to express our strong opposition to the proposed changes in the Michigan House FY25 budget recommendation related to the inclusion of community-based organizations (CBOs) and providers within Michigan's PreK for All/Great Start Readiness Program (GSRP). These budget proposals include unprecedented changes to the state's early care and education system that would have a devastating impact on already struggling working families, businesses, and our state economy.

The proposed changes do not align with Governor Whitmer's PreK for All Roadmap, which was crafted in collaboration with Michigan families, educators, and businesses statewide. The changes reverse years of progress made towards building a comprehensive mixed-delivery system that provides families with options that best meet their needs. These changes not only jeopardize the accessibility of high-quality preschool for families, but will also disproportionately affect families of color, with low incomes and those living in rural communities, who already struggle to find affordable and flexible care.

Parents throughout the state often choose community-based GSRP classrooms over school-based options due to their recognized quality and long-standing presence within their communities. These programs not only offer high-quality education, but also provide flexibility including year-round, before and after school options. This is essential for parents to maintain full-time employment and support their families. Additionally, many CBOs offer the type of culturally responsive early care and education that families are seeking.

The exclusion of nonprofit, Head Start, and local community child care and education providers from Michigan's GSRP PreK program threatens irreparable harm to small businesses, many of which are operated by women, particularly women of color. By effectively barring community-based early care and education organizations from participating in GSRP, these policy changes risk destabilizing the child care sector. Inexplicitly these policies will also exclude federal Head Start programs, that make up the largest single group of community GSRP providers, both harming the nation's primary anti-poverty program for preschoolers and supplanting federal PreK investments in Michigan. Ultimately, these proposals will exacerbate Michigan's existing child care supply crisis.

A U.S. Chamber of Commerce Foundations study estimated that Michigan is losing \$2.88 billion annually due to insufficient supply of child care. These proposed changes exclude community-based child care businesses from providing GSRP and jeopardize their ability to serve younger children. Infant and toddler care is more costly, and many child care businesses offset these costs by serving older children. Disallowing them from serving four-year-olds will force programs to raise tuition for

infant and toddler care to support increased costs, ultimately creating a wider equity gap for families. These are the unintended consequences seen in other states that have implemented school-based universal PreK.

We urge lawmakers to learn from the experiences of other states and heed the Biden administration's Departments of Health and Human Services (HHS) and Education (ED) call for states to implement mixed delivery systems while moving towards implementing universal preschool. Lawmakers must continue working alongside early childhood leaders and prioritize the needs of Michigan families in budget decisions to ensure the accessibility and sustainability of high-quality early care and education.

Thank you for your time and consideration.

Sincerely,

Organizations
